

TROY®

TROY M604/M605/M606 MICR Printers

HP AUTHORIZED - TROY ENHANCED

TROY M606 MICR Secure Ex

Major Selling Points

- **Multiple Model Choices**
Providing print capacity and security features to fit your needs.
- **High Level Print Security**
Optimize productivity for every size workgroup with fast 52-65 page per minute print speed. Even complex print jobs are simplified, thanks to multiple paper handling options.
- **Flexible Supply Options**
All TROY printers are fully compatible with HP cartridges and accessories. Easily upgrade and add new capabilities as your needs change. Gain high efficiency for the long term.

TROY Exclusive Security Features

New Touch Screen Control

TROY MICR printers, enhanced with the capability of locking a print job, allow for job authentication. Providing only authorized personnel with the ability to print, the 4-line LCD with numeric keypad allows the PIN number to be easily entered unlocking the printer capabilities for each print job.

*Available on MICR Secure and MICR Secure Ex printers.

3-Position Printer Key Locks and Paper Tray Locks

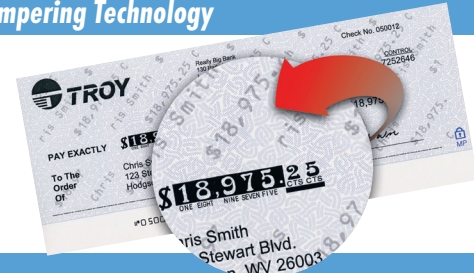

Most businesses locate the workgroup printer in an open office environment. This creates a security risk. TROY offers 3-position MICR key locks and paper tray locks to reduce the risk of check stock theft and printer misuse.

Exclusive TROYMark™ Intelligent Anti-Tampering Technology

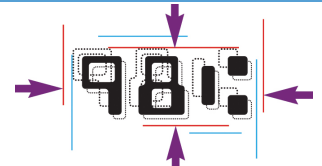

TROYMark™ is a watermark of user-defined variable data, printed diagonally across each check. It provides state-of-the-art deterrence of fraudulent check alteration.

Available on M605 and M606 MICR Secure Ex printers.

ExPT™ Exact Positioning Technology

A MICR line out of alignment is one cause of rejected checks, a multimillion dollar problem for banks and companies. ExPT™ allows users to precisely adjust the MICR line without affecting the data file.

Built-In Secure Encryption and Decryption

Data security is critical in a distributed printing application. TROY's encryption/decryption technology "unlocks" and only prints when it is received at the TROY printer.

Complete the Solution

- **TROY MICR Toner Secure** - A patented formula that helps deter fraudulent alteration by releasing a red dye when chemical removal of toner is attempted with a solvent.
- **TROY MICR UV Toner** - This toner appears as standard black to the naked eye but fluoresces blue under a UV verification light for an additional layer of security.
- **TROY Check Paper** - A full selection of check stock to choose from allows TROY to be your one stop solution for all of your check printing needs.
