

TROY®

TROY WF-3620 MICR SecureUV Printer

Features

TROY MICR Technology for Quality Check Printing

- TROY MICR E-13B font download included.
- MICR Ink manufactured to ISO 9001:2008 standards.
- MICR Characters and Ink engineered for compatibility to meet worldwide banking standards.

TROY SecureUV Technology for Adding Security

- The TROY WF-3620 MICR SecureUV Printer offers the ability to print select areas of a document with ultraviolet (UV) ink that is only visible under a specified UV verification light.
- Any combination of graphics, text, or barcodes can be used to create a customized secure document. Invisible SecureUV elements print at the same time as the standard visible portions of the document.

Benefits

- Compact desktop MFP design ideal for low volume print environments which need the ability to print, scan, copy and fax.
- Provides businesses with the ability to print checks, secure documents and standard print jobs from one printer.
- MICR features produce complete checks, eliminating the need for preprinted check stock.
- SecureUV features provide the ability to add multiple security features to any high value document.
