

CANON IMAGERUNNER ADVANCE 8585 MICR PRINTER

Designed for high-volume printing environments with a need for check printing capabilities, the Canon imageRUNNER ADVANCE 8585 printer offers powerful production tools that help streamline every part of the production process. With a complete set of advanced job management features, tools, and utilities, jobs will move through with impressive speed and accuracy.

The imageRUNNER allows you to manage, prepare, and monitor documents right from your workstation. With imageRUNNER ADVANCE Desktop, you can combine multiple formats, preview files, and select finishing functions, like subset stapling. The Quick Printing Tool lets you print, fax, and convert files to PDFs with drag-and-drop simplicity without opening the native applications. Even check the status of your imageRUNNER ADVANCE system from your workstation.

Benefits

High Volume Productivity

With a paper capacity of up to 7,700 sheets and remote notification of low supply inventory, you can ensure that long jobs run without the need for paper replenishment. Even better, toner and paper can be replenished without interrupting the job run.

Outstanding Reliability

Remote service monitoring and automated dispatching keep your system moving efficiently allowing for virtually nonstop operation. With an exceptionally high yield of up to six million impressions, the imageRUNNER is engineered for high-volume demand and increased longevity leading to fewer service calls and more uptime.

Advanced Check Security

High quality TROY MICR Toner Secure cartridges ensure consistent check quality with an additional layer of security not offered by competitors. This patented formula helps deter fraudulent alteration by releasing a red dye when chemical removal of toner is attempted with a solvent.

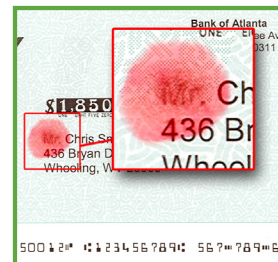

TROY Security Features

MICR Block

- Accepts only TROY MICR Toner cartridge to fill hopper in printer.
- Protects against accidental mixing of standard and MICR toners which results in down time for printer service.
- Prevents the risk and expense that would occur when large numbers of checks are returned because standard toner was used by mistake.

MICR Toner Secure

- Provides additional layer of check security
- Formulated according to worldwide banking standards.
- Manufactured and filled in all new OEM cartridges.
- Quality controlled to ISO 9001:2009 standards

Give your business needs a professional finish today and in the future by utilizing the expanded range of in-line finishing options. Add the ability to automatically staple in multiple positions, two- or three- hole punch, professional punch with varied punch patterns, and saddle-stitch and face-trim booklets. Or add color to your document set with the ability to insert preprinted media. These accessories operate with outstanding accuracy and speed. Learn more about them below.
