

TROY MICR Printer Features

Security features are what make our printers unique and designed for check printing.

MICR Secure Ex Printer

Includes all 25 security features listed below.

Auto-Protect Font

Automatically prints "void" if job is diverted to a non-TROY printer.

Secure 3-Position Keylock

Enables the printer to be physically locked, protecting companies from fraud by refusing unauthorized access to resources.

TROYMark™

Anti-tamper technology provides a repetitive watermark of variable check data across the background of the check (i.e. payee and amount).

MICR Secure Printer

Includes all 22 security features listed below.

Audit Trail Reporting

Easily keep track of each secure check that has been printed.

Encryption & Decryption

Ensure protection of sensitive print data traffic over the network.

PIN-Activated Controls

Restrict both MICR and non-MICR print jobs.

Paper Tray Locks & Mapping

Overrides unauthorized tray calls; assuring special paper can only be accessed as needed for printing.

Protected Signatures and Logos

Restricts access to printer-resident signatures and logos by locking them behind a password.

TROY Enhanced Audit

Collect user customizable check data and print audit reports - all at the printer.

MICR Printer

Includes all 16 security features listed below.

Exact Position Technology

Enables precise positioning of both the MICR line or the entire check image.

Flash Memory

End user ability to conveniently store signatures and logos in the printer.

Disable Jam Recovery

Prevent duplicate checks when paper jams occur.

MICR Quality Test Page

Ensures high quality MICR output by enabling users to verify correct installation of MICR fonts and support files.

Toner Sensing

Detects presence of MICR toner and prevents printing of MICR or other specified features.

Toner Low Notification & Response

Ensures highest printing quality by stopping the printer until the user replaces the cartridge.

Unique User Names & Passwords

Each user has their own unique password rather than sharing between multiple users. This prevents unauthorized check printing.

Barcode Fonts

U.P.C. A&E, EAN 13&8, Interleaved 2 of 4, Code 39, Code 128, Postnet - Enables complete printing of a document in a single pass.

TROY MICR Fonts

E13-B, CMC-7, OCR A and B Convenience and Security Fonts are designed to be printer specific rather than "one size fits all".

Menu Administrator Password

Prevents unauthorized access to MICR resources.

Automatic Density Settings

Maintains consistent quality and signal strength.

TROY or HP OEM Toner Cartridge

Swap TROY or HP OEM toner cartridges for check and standard printing.

User Customizable MicroPrint Font

Font appears as a fine line to the unaided eye and is only visible under magnification.

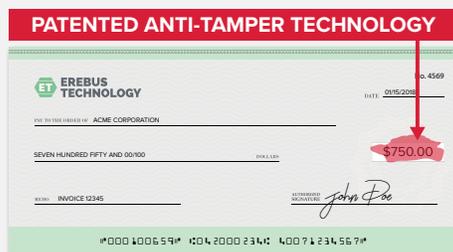

Paper Tray Locks & Shielding

Safeguards valuable check stock, certificate stock, or other valuable stock. *Optional on MICR & Secure models.

Control Panel Password

Controls access to MICR settings, user settings, audit reports, decryption, and other secure resources.

Included with Every TROY MICR Printer. The World's Most Fraud Resistant MICR Toner.™

We always start with an original, brand new, HP toner cartridge. We then upgrade the standard toner with TROY MICR Toner Secure, which is The World's Most Fraud Resistant MICR Toner. Starting with an original HP cartridge is vital to the security, quality, and reliability that our customers depend on.
