

TROY ST-C5000 Secure UV Printer

EASILY SECURE ANY PRINTED DOCUMENT

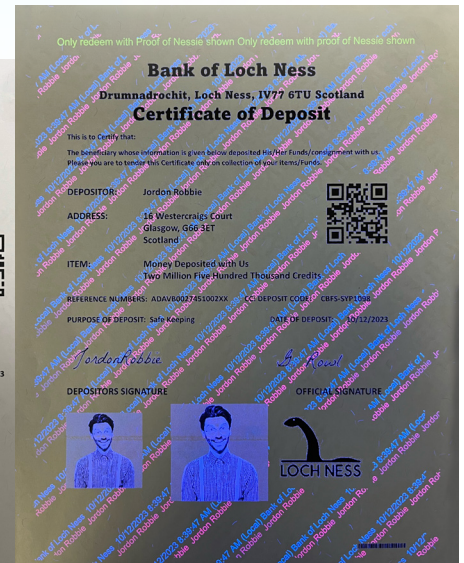

Unbeatable fraud deterrence.

Add multiple layers of document authentication and fraud deterrence to high security applications with TROY Security Inks. Add overt and/or covert security to any document. Works with blank or preprinted UV security paper stock; secured paper trays to keep high value stock locked and protected from theft.

Utilizing both TROY's UV technology and SecureDocs Sentry solution*, organizations can add personalized, layered security features to enhance document authentication and fraud deterrence.

UV LIGHT

ORIGINAL

Unmatched technology.

Each printer and security ink has been developed to fit the unique needs of UV security printing worldwide. With the ability to print fluorescing UV, integrating additional security elements into your document.

Overt & Covert Security

Visible or invisible inks with fluorescing reaction for authentication under UV light**

Paper Tray Lock

Prevent theft of your valuable paper stock while regulating chain of custody with optional tray lock

Cost efficient secure print.

Professional quality printing is delivered with ink tank technology that makes refills easy and reduces cost per print throughout the life of the printer.

Proven, reliable technology

Inks designed & matched specifically to the printer
